

# Seth Rait

srait@brandeis.edu | 716.208.7766

## EDUCATION

### Brandeis University

BS IN COMPUTER SCIENCE

Exp. May 2018 | Waltham, MA

GPA: 3.64

Dean's List: 3 semesters

## LINKS

Github: // [sethrait](#)

LinkedIn: // [sethrait](#)

Twitter: // [@sethrait](#)

## SKILLS

### Programming

Most comfortable with:

Java

C++

Powershell

Bash

Also utilized:

Python

JavaScript

SQL

### Software

VMware suite (Horizon, vCenter,

ESXi, Worskstation, etc.)

Google Cloud Platform

Vanadium

JIRA Service Desk

## COURSEWORK

Cryptography and Computer Security

Advanced Programming Techniques

Data Structures

Discrete Mathematics

SICP

Theory of Computation

Operating Systems

## EXPERIENCE

### Google

ENGINEERING PRACTICUM INTERN

May 2016 – Aug 2016 | Kirkland, WA

- Enabled secure storage, transfer, and integrity of data using both new and currently available encryption solutions.
- Tested the efficacy of security offerings in order to examine usage viability.
- Replaced potentially unsafe or inefficient functionality with more generally accepted solutions and implementations of security principles.

### Brandeis University Department of Computer Science

UNDERGRADUATE DEPARTMENT REPRESENTATIVE

May 2016 – Present | Waltham, MA

- Liaise between students, faculty and administrators on current department issues and events
- Organize department events, generating greater involvement by students in the computer science community
- Advise new students of department and career development resources

### Heller School for Social Policy and Management

ASSISTANT SYSTEMS ADMINISTRATOR

December 2014 – Present | Waltham, MA

- Automated redundant tasks across users and machines
- Imaged and customize builds and operating systems for use with Thin-Client systems
- Allocated server resources dynamically and manually to groups and pools for data/CPU intensive tasks
- Managed secure systems and SFTP servers implementing dual-factor authentication and IP-blacklisting

## PROJECTS AND LEADERSHIP

### Codestellation

Organizer of Brandeis University's intercollegiate hackathon since its inception in Fall 2014. Responsibilities include sponsorship procurement, university relations, and general administration.  
<http://Codestellation.io>

### BITMAP

President of the Brandeis Initiative for Technology Machines, Apps and Programming. Brandeis University's largest and oldest tech club.

### Edgar Allen Poetry

Turing Test for poetry generated by a Markov Chain and a Neural Net. Which one, if either, can fool a person?  
<http://rmarcus/eap> , <http://GitHub>

### Subnet Reporting

Suite of programs for discovering and reporting on IP usage for statically assigned addresses on a given subnet.  
<http://GitHub>
